DETAILED ACTION

1. The reply filed March 29, 2007, has been received and entered. Claims 1-22 are pending.

Allowable Subject Matter

2. Claims 1-22 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Independent claims 1, 15, and 16 each source code vulnerability detection steps that include the generation of a model of operands (claims 1 and 16) and arguments (claims 1, 15, and 16), wherein the models are transformed from an initial model describing the range of possible values for the operand/argument to a transformed model describing a refined/transformed range of possible values reflecting how the source code acts upon the operand/argument, affecting the possible values. (See Remarks (03/29/2007) at p. 10; Interview Summary (03/28/2007).) The prior art of record fails to expressly teach or fairly suggest these features in the context of source code vulnerability detection recited in each of independent claims 1, 15, and 16.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
